Comments and Recommendations Cap Design and LTMMP.docx

Hi Rob,

Attached are EPA's remaining comments on the cap design and monitoring plan. A revised draft of the monitoring plan will be required, and additional comments may be provided on the revision. We anticipate that, after review, we will be able to approve the revised Section 7 of the final design.

As is indicated in the attachment, we would like to discuss the proposed monitoring plan with you next week. I am currently available Tuesday afternoon, anytime Wednesday, and most of Thursday.

Please let me know if you have any questions.

Thanks,

Stephanie
